Subject: Covid-19 booster information
Date: Tuesday, November 30, 2021 4:42:15 PM

Longwood community,

Please be aware that the Centers for Disease Control have updated their guidance regarding Covid-19 booster shots, and are now recommending that everyone 18 and older should receive a booster shot.

Booster shots are available to the Longwood community at the University Health Center. Please make an appointment by calling 434-395-2102.

You can also receive a booster at Walmart or CVS locally. Please keep in mind that no matter which initial vaccine you received, you can get any one as a booster shot.

Finally, as winter break approaches, I know that some of you would like to be tested before returning home. You can schedule a peace-of-mind test at the University Health Center by calling 434-395-2102.

Have a great last week of classes and exam week!

Matthew McWilliams
Assistant Vice President for Communications
Longwood University
