What is a Quality Enhancement Plan (QEP)?

The QEP is a five-year institutional improvement plan that focuses on student learning or student success. Developing a plan to enhance the quality and effectiveness of the student experience is an important opportunity for Longwood. The plan is not required to affect every student. However, it should be extensive enough to affect a diverse and large percentage of our students over the course of the five-year project. The potential impact should be substantial, in terms of both the number of students affected and the benefits for each student.
