**RATIONALE**

Enter the rationale for (changes to) the course. \* **After implementing the new curriculum (began Fall 2016) we have discovered a need to revise the order in which courses are being offered. The course content for (NURS 225) Nutrition: Health and Disease aligns better with junior level fall semester courses and requires students to have a better foundation of (NURS 310) Pathophysiology to understand the disease process before applying it in the Nutrition Course. Therefore we are proposing to move NURS 310: Principles of Pathophysiology to the spring semester sophomore level to align with the content of NURS 230 and move NURS 225: Nutrition: Health and Disease to the Junior Fall Semester. We are also changing the course number of NURS 225 to NURS 315 to clarify the sequencing.**
