

Visual Updates: Multiple Choice

Overview: We heard your feedback and will be updating our visual charts to simplify and enhance the presentation experience.

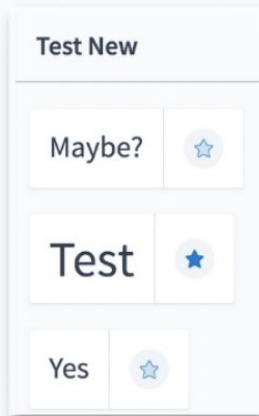

Visual Updates: Free Text

Overview: *We are changing the way open-ended activities are displayed to improve overall functionality and visibility.*

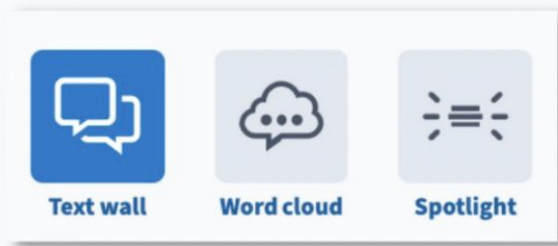

Free Text

New functionality and visual design that make responses easier to view:

For example, Text Wall now allows you to "favorite" a response to make it larger and easier to view on the chart.

Cluster activity types have been removed, but you can still use Text Wall, Word Cloud and Spotlight types.

Visual Updates: Clickable Image

Overview: We are redesigning the pin functionality in Clickable Images to allow for better accessibility.

Clickable Image

Clickable Image has been improved to be more accessible:

Clickable Image activities now have red and green dots to indicate clicked locations. For correctness, the dots will display either checkmarks or x's for correct and incorrect answers.

Revealing regions or correctness will darken and blue the undefined areas of the image, while keeping the marked regions bright and in-focus.

Updated Design

Old Design

Find the camouflaged animal

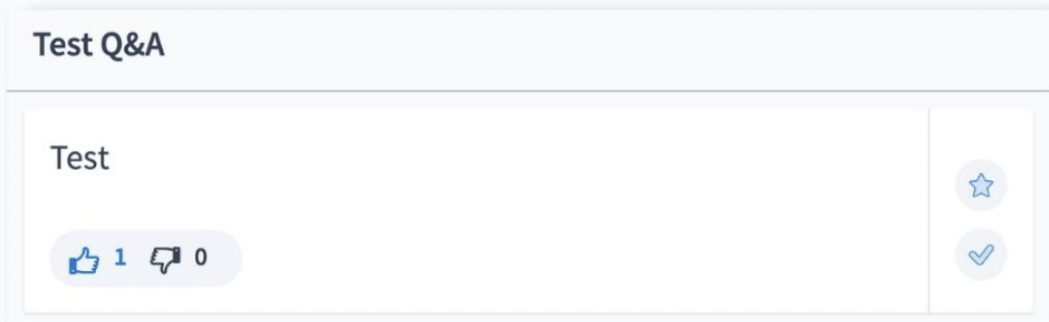

Visual Updates: Q&A

Overview: Redesigning Q&A activities for a more efficient workflow and increase the visibility of the activity.

Q&A

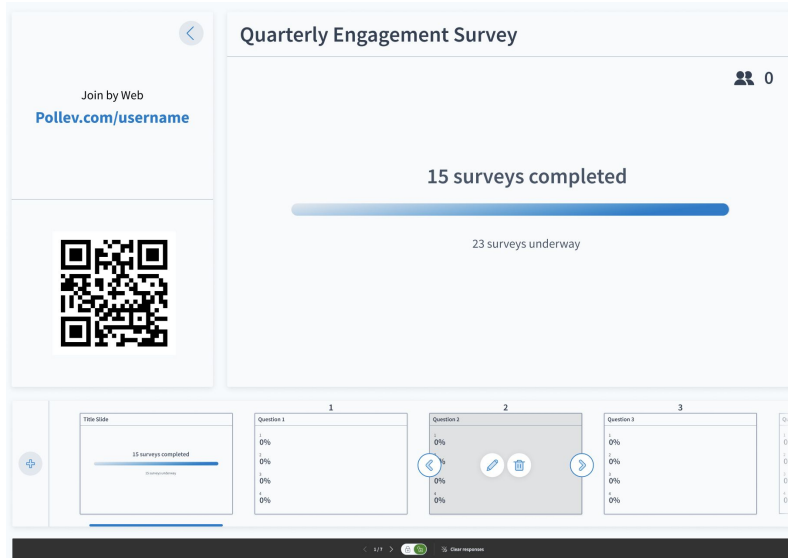

Q&A activities have been tidied up so that interaction doesn't obscure the content:

Up and downvotes are now displayed below the response, and the "favorite" (star) and "hide" (checkmark) options are now on the far right of the response box.

Visual Updates: Survey

Overview: The workflow of Surveys will be optimized to make it easier to quickly scroll through questions and see current Survey progress.

Updates & Benefits:

- Visual changes to the live progress bar
- Previews of survey questions now displayed at the bottom with a scroll function

Visual Updates: Competition

Overview: Revamping the design of Competitions to make them more colorful and fun for the audience.

Updates & Benefits:

- New design for leaderboard
- As of now, no major functional changes planned
