

The AAC would like the Senate to consider including the following language in the FPPM. If the Senate agrees to include this in the FPPM then the Senate could choose the most appropriate place or we could suggest that as well.

Thanks, Brian

“Course prefixes, such as Math or CMSC, are assigned to one particular unit of the Longwood Academic Community. A course’s with a given prefix can only be created by the unit to which ~~it is~~ **the prefix is** assigned. **The creation of a course offering may only be initiated by the department to which the prefix belongs.** Any course prefix representing a program on Longwood’s Farmville Campus will be assigned to the academic department responsible for that program.”

Approved as amended by EPC on 10/26/10
